

GHOULISH GOBLETS

This creepy, crawly craft project is perfect for the kids (and kids at heart) and allows for oodles of creativity. Simply grab an assortment of various glasses, goblets, candy dishes or other glassware, then break out the glue and paint pens. Your clever new creations will scream for attention.

You Will Need:

From Savers/Value Village

- Your choice of assorted glass serving ware, including wine glasses and water goblets.

Other supplies

- Festive adornments such as plastic bugs, ants, spiders and googly eyes (thrift stores often have these in stock too, so check the craft wall or new Halloween décor section)
- Black paint pen
- Appropriate glue for adhering to glass

Directions:

- 1) Clean all glasses and ensure they are completely dry before starting.
- 2) Decorate, decorate, decorate!
 - a. Use the black paint pen to draw spider webs, bats or other Halloween favorites on the outside of the glass.
 - b. Glue plastics ants and spiders as individuals or in small trails around the glass.
 - c. Glue googly eyes onto juice glasses.
- 3) Avoid decorating too close to the rim of the glass where people will be drinking. If you plan to reuse the glasses next year, hand wash them carefully.
